

# The Slot-Back Pig

## The crisis

Once counted in the tens of thousands, these cute little prairie critters are being hunted almost to extinction for their hidden treasures. It's tragic, but many Albertans believe that the innards of the piggy bank will increase their short-term happiness. The facts prove otherwise. Keeping these precious creatures and other savings intact will yield brighter futures for all.

## The solution

The best way to learn how to save the Slot-Back Pig (while not putting the fun things in life on the endangered species list) is to contact the experts at Money Mentors. They've saved a lot of Slot-Back Pigs. They can save yours.

**Manage your money.  
Plan for your future.  
Save the pig.**

It all starts with a free half-hour consultation – thirty minutes that will leave you feeling focused and more positive about the future. We'll ask you where you are financially and what your dreams for the future are, then we'll show you some ways to get what you want.

# Help Save the Slot- Back Pig.

## What We Do

**A mentor is a guide or teacher. Money Mentors teaches the basics on investing, mortgages, retirement, estate planning, insurance, the wise use of credit, and more. We can help you plan for a secure financial future and still enjoy the fun things in life.**

Money Mentors is a division of Credit Counselling Services of Alberta. For 10 years CCSA has been offering debt management programs to Albertans. Now, with Money Mentors, we're giving Albertans the tools they need to avoid money pitfalls and plan for long-term financial success.

## The Money Mentors Difference

### Unbiased advice

Unbiased financial information is a rare thing. There are a lot of people out there offering financial advice - but most are also selling financial products, so their advice almost always leads you back to the investments they are promoting. Isn't it smarter to get sound basic knowledge first? This is where we come in.

### A diverse range of experts

Money Mentors coaches are **Personal Finance** and **Family Financial Management** experts with a wide range of financial backgrounds. They can help you see the big picture and develop spending plans that let you find a few extra dollars to save, invest or pay down debts. Plus they can help you make credit decisions that could start saving you money almost immediately!

### Services tailored to fit your needs

Some people just need a little advice to get them started while others want ongoing coaching. Some people get the most out of one-on-one coaching; others are comfortable in a seminar situation. At Money Mentors you'll get the information you want in a way that suits you.

## Our Services

### Personal Money Coaching

One hour sessions tailored to meet your needs. You'll get a MAP (Money Action Plan) that will let you make the most of your money. We have special rates for series of sessions, and packages that combine seminars with coaching sessions.

### Group Seminars

Fun, friendly and inexpensive. Topics include achieving your financial goals, money personalities and attitudes, putting the brakes on shopping, couples and money, loans & leases, mortgages, investing, and more. Call us or visit [moneymentors.ca](http://moneymentors.ca) for a complete list and schedule.

### Corporate and Community Services

Studies show that companies that help their employees stay financially healthy experience less absenteeism, fewer health claims and better job performance. Community groups gain similar benefits. We can customize lunch and learn presentations, full seminars or personal coaching at your site or ours. Talk to our Business Development Coordinator at **(403) 234-6198**.

**The daily \$4.75 latte is threatening the Slot-Back Pig. A spending plan for little luxuries is the only hope. Call Money Mentors for help.**
